Addendum #2

Bid No. 04-24

College Street Roadway Improvements

Addendum Date: March 15, 2024

Opening Date: March 19, 2024

Owner: City of Maryville

Total Pages: 1 page

The following addendum was issued during the bidding process for the project and is included herein as part of the construction documents (Total addenda issued: 2 of 2).

Description of Addendum #2:

Answers to questions about the project bid:

1. There are 85 tons of Asphalt Concrete Mix (PG70-22) (BPMB-HM) Grading BM-2 on the bid form, and it is not detailed to be used on any section. There roadway patching in front of the sidewalk is shown on Sheet 2B1 as Concrete Pavement Patching (6.5" Thick). Is this BM-2 to be used for this roadway Patching? Can Asphalt Concrete Mix (PG64-22) (BPMB-HM) Grading BM-2 be used instead?

Yes, (PG64-22) (BPMB-HM) Grading BM-2 can be used anywhere asphalt patching is needed such as along the dig out for the sidewalks and the crosswalk areas.

2. The detail on sheet 2G1 indicates 5" Thick Sidewalk. The bid item 701-01.01 indicates 4" Sidewalk. Please clarify.

The 5-inch thick sidewalk detail on sheet 2G1 is an error. The correct sidewalk thickness is 4-inch as shown in the bid schedule and the road typical sections.
