### Requirements of Permit Holder

This request will be required for any person, firm, corporation, public or private utility, association, or others to temporarily block any portion of a sidewalk for any purpose. Anyone undertaking such activity shall comply with the following criteria:

1. Submit a diagram with the request showing the area affected with approximate location of safety devices and equipment.
2. All work within the sidewalk will require traffic control measures to be used pursuant to the Manual of Uniform Traffic Control devices. These guidelines are strictly a minimum requirement and the City may require additional measures prior to or during construction. These may include additional signing, flagmen, police officers, restrictions on construction hours, etc.
3. A new request shall be required if activities have been delayed for more than two (2) days beyond the proposed start date.
4. The contractor understands that he will be required to replace any paving, curbs, sidewalks, drainage facilities, and utilities that are damaged by his work.
5. The contractor shall keep the permit on site at all times.

I hereby acknowledge that I have read the above information and agree to comply with the criteria.
